James Clark of Better Family Life will conduct a conversation with families who have been affected by gun violence.

Every day, 8 children in America lose their lives to gun violence

- In St. Louis, children of color are dying at among the highest rates in our country
- More than 35,000 children and teens in Missouri live in homes with guns that are loaded and unlocked

Gun violence is a public health issue affecting all of our children

- Understand the complex factors that cause gun violence and its affect on children's physical and emotional well-being
- Get practical steps to protect the children in your life... and in our community
